## Tour Leader: Andy Phillips

Andy is a former university lecturer, schools' inspector and educational consultant. His first contact with Discover Ltd was in 1982 on a geography fieldtrip. Since then, he has travelled (and cycled) extensively in Morocco and has run many trips for and on behalf of Discover Ltd. As a keen gardener/allotment holder, he has visited numerous gardens in Morocco and led a bespoke private tour of these gardens in November 2025 which was extremely well received:

*"Congratulations and grateful thanks for all your hard work and the wonderful itinerary – the gardens we visited were exceptional and we had the right amount of time to explore them. It was, as Mary Poppins would say, 'Practically perfect in every way.'"*  
*Lizzie Booth (November 2025)*
